

National Depression Screening Day[®]

introduces

Stop A Suicide Today!

NDSO/SAST provides **mental health screening** for those not in treatment **plus suicide detection and education** for friends, families and clinicians. NDSO/SAST helps to:

- ❖ Reach community members across the lifecycle, year-round
- ❖ Market your services to community members
- ❖ Educate clinicians and hospitals on how to provide suicide risk assessment in compliance with the new safety goals on suicide (The Joint Commission)

The NDSO office provides:

- ❖ A comprehensive kit of ready-to-use materials
- ❖ Event promotion materials, guidelines, and templates
- ❖ A national media campaign to increase attendance at events
- ❖ Support and technical assistance via phone, email and the web

Organizations conducting a screening event provide:

- ❖ Clinicians and administrative staff to run the event
- ❖ Physical location for the event (A high-visibility community location)
- ❖ Event promotion and implementation in your local community

Full Kit (\$195)

The Full Kit includes materials to educate and screen 50 participants. Materials include screening forms, Suicide Risk Questionnaire, educational brochures, a video, clinician education materials, posters, promotion templates, the Implementation and Promotion Guide and access to a webpage of downloadable resources.

Online Screening – 24/7 Through Your Website (\$195)

Anonymous, online screening for depression, bipolar disorder, generalized anxiety disorder and PTSD with immediate results and feedback. Your community members will receive a customized welcome message and referral for evaluation and/or treatment. Real-time utilization reports of screening results. Plus, add your own customized demographic questions. Available in both English and Spanish.
