Diane Butler, BSN, RN, C is the Manager of Community Health for Munson Medical Center. Diane provides oversight and management of the community health initiatives and community benefit activities for Munson Medical Center and its owned entities. She also provides oversight for some of the large initiatives associated with the Munson Healthcare system.

Munson Healthcare is comprised of eight hospitals, clinics, and a wide range of services for patients from 24 counties. Munson Medical Center, a regional referral center, is the core hospital of the healthcare system and repeatedly named one of the top 100 hospitals in the country.

Initiative oversight includes the Northern Michigan Diabetes Initiative, regional community health assessments, prescription assistance programs, health care transportation, Healthy Futures for mothers and children and the Let's Get Moving Grand Traverse Area program. Leadership is provided in collaborative programs such as the Poverty Reduction Initiative, Healthy Weight Initiative for School-Aged Children and access to care for the uninsured.

Responsibility for tracking and reporting community benefit activities for Munson Medical Center and its owned entities falls under Diane's purview. Oversight has been provided for many employee and community wellness programs. She also serves as a liaison to the community on multi-purpose collaborative bodies and health committees.

Diane earned an RN diploma from St. Joseph Mercy School of Nursing, a Bachelor of Science in Nursing from Ferris State University, a graduate certificate in Holistic Health from Western Michigan University and gerontological nurse certification through the American Nurses Association. She has over twenty years experience in management, program development, implementation, evaluation and education.
