Hospital Readmissions

The Role of Home Care

June 30, 2010, 12:00 - 1:00 pm (EDT)

Presenter: Steve Landers, MD, MPH, Director, Center for Home Care and Community Rehab., Cleveland Clinic

Who Should Attend: Hospital Leadership including; CMO, VP Medical Affairs, Chief Quality Officer, Chief Nursing Officer, Director of Discharge Planning, Director of Social Services; Hospitalists, and Participants in Home Health Quality Improvement (HHQI) National Campaign

Goals:

- To share best practices for the use of home health care in patients who have chronic care needs or high-risk patients
- To understand the benefit and importance of the home health care referrals for patients in a post-acute care transition to home
- To facilitate better cross-setting communication in the hospital discharge process as a means to reduce unnecessary hospital 30-day readmissions

This FREE webinar is sponsored by the Home Health Quality Improvement (HHQI) National Campaign, a grassroots movement designed to unite home health agencies, stakeholders and multiple health care settings under the shared vision of improving the quality of care home health patients receive.

Space is limited, register now at
