

Exploratory and Developmental Grant to Improve Health Care Quality through HIT

Agency for Health Care Research and Quality

<http://www07.grants.gov/search/search.do?&mode=VIEW&flag2006=false&opId=42966>

This FOA is focused on three research areas of interest:

1. Health IT to improve the quality and safety of medication management via the integration and utilization of medication management systems and technologies;
2. Health IT to support patient-centered care, the coordination of care across transitions in care settings, and the use of electronic exchange of health information to improve quality of care; and,
3. Health IT to improve health care decision making through the use of integrated data and knowledge management.

DEADLINE: *The application due date is November 16, 2011.*
