

RESTRAINT & SECLUSION FINAL RULE: Implementing the CMS Hospital Patient Rights' Conditions of Participation

REGISTER NOW FOR
A TELEPHONE CONFERENCE FOR HOSPITALS SERVING
MEDICARE/MEDICAID BENEFICIARIES WITH BEHAVIORAL HEALTH NEEDS

On December 8, 2006, the Centers for Medicare and Medicaid Services (CMS) issued a final rule on hospital Conditions of Participation on Patients' Rights, including new requirements on the use of restraint and seclusion. The rule is effective January 8, 2007 for all hospitals participating in Medicare and Medicaid, including both general hospitals and freestanding psychiatric hospitals. The 50-page final rule is available at <http://a257.g.akamaitech.net/7/257/2422/01jan20061800/edocket.access.gpo.gov/2006/pdf/06-9559.pdf>.

To help hospitals understand and meet the new requirements, the National Association of Psychiatric Health Systems has organized a special telephone conference call. The presentation, including CMS staff as faculty, will highlight the changes in the regulation as well as the types of organizational changes that hospitals need to consider to ensure compliance. A representative of psychiatric nursing leadership will discuss the role of the trained registered nurse in the implementation of the rule. Also hear from a physician with responsibility for implementing policy for care of patients with behavioral health needs.

The telephone conference format allows you to get all the benefits of an interactive conference – without ever leaving your office – and without breaking your budget. Registration fees are per incoming line, not per participant. You can have as many people listen in on your speakerphone as you wish.

☑ **Thursday, February 15, 2007, from 2pm – 4pm Eastern**
