

Small Research Grant to Improve Health Care Quality through HIT

Agency for Healthcare Research and Quality

<http://www07.grants.gov/search/search.do?oppld=42968&mode=VIEW>

The purpose of the program is to support a wide variety of research designs in order to improve the quality, safety, effectiveness, and efficiency of health care through the implementation and use of health IT. These designs include: small pilot and feasibility or self-contained health IT research projects; secondary data analysis of health IT research; and economic (prospective or retrospective) analyses of health IT implementation and use. Through economic analyses estimates of health IT implementation and use costs and benefits will be generated.

DEADLINE: *Applications are accepted on an ongoing basis.*

Eligibility	Funding	Requirements	Additional Information
<ul style="list-style-type: none"> State governments; County governments; Public and State controlled institutions of higher education; Native American tribal governments (Federally recognized); Native American tribal organizations (other than Federally recognized tribal governments) 	<ul style="list-style-type: none"> Funding details can be found in the full announcement. 	<ul style="list-style-type: none"> Detailed application requirements can be found in the full announcement. 	<ul style="list-style-type: none"> A link to the full announcement can be found here: http://grants.nih.gov/grants/guide/pa-files/PAR-08-268.html
