

America's Hospitals
Have One Word for Congress on the Need
to Pass the Medicare Prescription Drug Bill:

Stat

“Stat” means “urgent.”

The Prescription Drug Bill
includes important provisions
that help give hospitals the resources
they need to continue caring — not only for
America's seniors, but all patients.

The people of America's Hospitals
urge Congress to make history:

Pass the Medicare Prescription Drug Bill.

This message is brought to you by the American Hospital Association.
