

## Join us and key Federal Agencies at the HITRUST CyberRX Town Hall and Cyber Live Simulation

### Hosted by the Health Information Trust Alliance (HITRUST) and Booz Allen Hamilton

Booz Allen and the HITRUST Alliance invite you to participate with leading Federal agencies at their CyberRX 2.0 Cyber Preparedness, Education and Simulation event in Washington, DC and online.

This event is a cyber preparedness, education and simulation event and will include representatives from the Department of Health and Human Services (HHS), Federal Bureau of Investigation (FBI), and the U.S. Department of Homeland Security (DHS).

The event agenda will feature speakers from these leading Federal organizations as well as exciting industry keynotes. At the CyberRX Town Hall, there will be a cyber-attack simulation exercise that will provide opportunities for organizations to learn how to assess their ability to respond effectively to cyber threats and attacks and understand what resources from federal agencies and the private sector are available to improve collaboration and cyber intelligence sharing.

Interested participants should sign up now at the HITRUST webpage since space is limited. For any additional questions, please feel free to contact me directly.

We look forward to seeing you at this exciting event!

Dianne Faup  
*Principal, Booz Allen Hamilton*

### Participate in person or via webcast:

You can join the complimentary session in person or via a streaming webcast.

Visit the HITRUST site for onsite registration at <https://hitrustalliance.net/cyber-town-hall-session-washington-dc/>
