

Nicolas C. Restrepo, MD, is the Vice President of Medical Affairs for Winchester Medical Center. Dr Restrepo assumed the role as Vice President of Medical Affairs in January of 2011, Dr. Restrepo after having had been in private practice with the Urology Clinic of Winchester and a member of the Winchester Medical Center attending medical staff since 1995.

Dr Restrepo has championed the organizations Journey to High Reliability and led the efforts to transform the Culture of Safety. Through this work, he came to recognize the adverse impact of addiction on the patients served and on the providers of care. Dr Restrepo has been co-leading Valley Health's community partnership in addressing the adverse societal impacts of addiction.

Dr. Restrepo earned his undergraduate degree from Catholic University of America, and his medical degree from the University of Virginia. He completed his internship and residency at Pennsylvania State University College of Medicine in Hershey, PA.
