## **Health Sector Cybersecurity Coordination Center launches new Website!**

We are very excited to announce the launch of our new website. Visit us at [www.hhs.gov/HC3](http://www.hhs.gov/HC3). The HC3 website is the next step in reaching our mission of supporting the defense of the healthcare and public health sector's information technology infrastructure, by strengthening coordination and information sharing within the sector and by cultivating cybersecurity resilience, regardless of organizations' technical capacity.

The website will host all of our sector resources along with new and archived products including:

**Threat Briefings:** A briefing presentation that highlights relevant cybersecurity topics and raises the HPH sector's situational awareness of current cyber threats, best practices, and mitigation tactics.

**Sector Alerts:** A document that provides High-level, situational background information providing context for technical and executive audiences. Designed to assist the sector with defense of large scale and high level vulnerabilities.

**White Papers:** A document that provides in-depth information on a cybersecurity topic to increase comprehensive situational awareness and provide recommendations to a wide audience.

MAKE SURE TO CHECK US OUT [www.hhs.gov/HC3](http://www.hhs.gov/HC3)
