WORTH FIGHTING FOR
Words and music by Brailey Lenderman & Chris Sligh

VERSE 1:
I know you feel alone in this place
Standing your ground, coming face to face
With people’s lives falling apart
Keeping it together by a thread
Cuz you keep on giving till there’s nothing left
It won’t always be this hard

PRE-CHORUS
Yeah you know it's nothing new
This is what you’re called to do, and...

CHORUS:
That’s something worth fighting for
A feeling that you can’t ignore
When the whole world’s trying just to bring you down
In the silence you can live out loud CUZ YOU KNOW
You can feel it down to your core
It’s love but it’s so much more...
It’s something worth fighting for

VERSE 2:
I know you feel invisible
But we see you, (pause) and you’re incredible
(pause) You’re not by yourself, yeah, we’re here with you too

No, ya can’t deny
What you feel inside
Just hold your head up high
Cuz you know you know the truth

CHORUS

BRIDGE:
Yeah we see what you’ve been through
This is what you’re called to do
Yeah you know this is nothing new
So just do what you’re born to do, cuz...

CHORUS
