COVID-19 Snapshot
Challenges Confronting America’s Hospitals and Health Systems
(January 20, 2022)

The COVID-19 Snapshot is the American Hospital Association’s look at what America’s hospitals and frontline workers are facing as they provide care during the public health emergency. America’s hospitals and health systems continue to face historic challenges, including unprecedented financial pressures. It is vitally important that hospitals and health systems receive further support and resources to ensure that they can continue to deliver critical care for patients and communities.

BY THE NUMBERS: COVID-19 IN THE U.S.

FROM THE FRONT LINES

“Omicron has more than doubled our covid hospitalizations in the past month...Many departments have temporarily sidelined their duties to help alleviate shortages and additional needs, because fighting covid is our top priority at the moment.”

Mitchell Nail | Media Relations Manager, St. Bernards Medical Center, Jonesboro, Ark.
