Social Media Toolkit

#HAVhope is a national day of awareness to highlight how America's hospitals and health systems combat violence in their workplaces and communities. June 3 marks the sixth annual Hospitals Against Violence #HAVhope Friday to highlight that hospitals and health systems continue working toward partnerships, innovations and creative thinking to build a safe workplace and community.

We invite you to share using #HAVhope what your hospital or health system is doing in this effort. By operating as a united front, our hospitals can forge a path for all to have hope.
