

FINISHED INTELLIGENCE REPORTS

HC3: Analyst Note - Healthcare Sector DDoS Guide

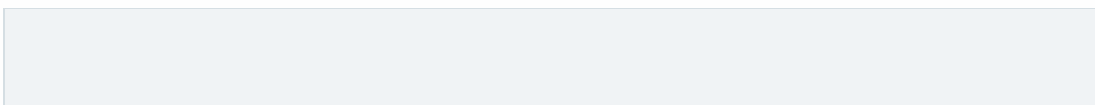

TLP:WHITE

Feb 13, 2023

Health-ISAC, in coordination with HC3, is sharing the following report on Healthcare Sector DDoS Guide

Distributed Denial of Service (DDoS) attacks have the potential to deny healthcare organizations and providers access to vital resources that can have detrimental impact on the ability to provide care. In healthcare, disruptions due to a cyber-attack may interrupt business continuity by keeping patients or healthcare personnel from accessing critical healthcare assets such as electronic health records, software-based medical equipment, and websites to coordinate critical tasks.
