

THE NUMBERS ARE ON YOUR SIDE – IF YOU KNOW HOW TO USE THEM

TURN BIG DATA INTO BIG RESULTS

No matter what level of working knowledge you have, this module will show you how to mine information and gain insights that lead to an effective data-use plan for your partnership.

MAKE SENSE OF THE NUMBERS

Let partnership goals be your guide to data discovery and evaluation, establishing the foundation to communicate your impact.

ROADMAP YOUR WAY TO SUCCESS

Starting with a community profile based on a standardized set of indicators, you can align as a team on your goals and create a data plan to achieve it.

COMMUNICATE PROGRESS-PLUS

There are reasons to use data besides progress reporting, such as to seek funding or maintain accountability with key stakeholders.

KEEP THINGS IN PERSPECTIVE

Data are a powerful conduit to move upstream in health care because they can provide insights to support the shift from problem mitigation to problem prevention.

This module will teach you to:

HOSPITAL COMMUNITY
COLLABORATIVE
