

# THERE'S NO END TO THE SUCCESS YOUR PARTNERSHIP CAN OFFER

## TURN TRANSFORMATION INTO LASTING CHANGE

Now that you and your partner have established goals and ways to achieve them, it's time to consider how you can build on the momentum.

## YOU'VE GOT THE MEANS, TIME TO FIND A WAY

By establishing a sustainable plan, you've already built a strong partnership foundation. This module will help you map out a path forward that takes advantage of your learnings.

Every step gets you closer to attaining your goals. Make sure you:

Solidify your final plan.

Identify key internal and external influences and partners.

Explore funding options that will sustain your program.

Identify and engage support of relevant management and boards.

Reaffirm your commitment to the future.

## BALANCED POWER IS LASTING POWER

Creating everlasting change requires a team effort. Be sure to mind the balance of power so one voice never dominates decision-making. The impact you have will continue to make a difference if everyone has their say.

## THE PROMISE OF THE FUTURE IS IN YOUR HANDS

We encourage partners to create a pledge in which they commit to fulfilling their initiatives. Consider creating a document that details your unique goals and ask each team member to sign it.
