

Hospitals are always there, ready to care.

Each year, America's hospitals and health systems:

- Provide care to **all** who need it **24** hours a day, **7** days a week, **365** days a year.
- Deliver **3.5 million** babies.
- Care for **32 million** people admitted to hospitals.
- Employ **6.3 million** people.
- Provide emergency care for **137 million** people.

In these unprecedented times, hospitals and health systems exhibit **compassion**, **courage** and **commitment to serving patients and communities**.
