# Building a Culture of Safety and Support

By strengthening safety for staff and patients, you can:

**Empower Your  
Workforce**

**Improve  
Retention**

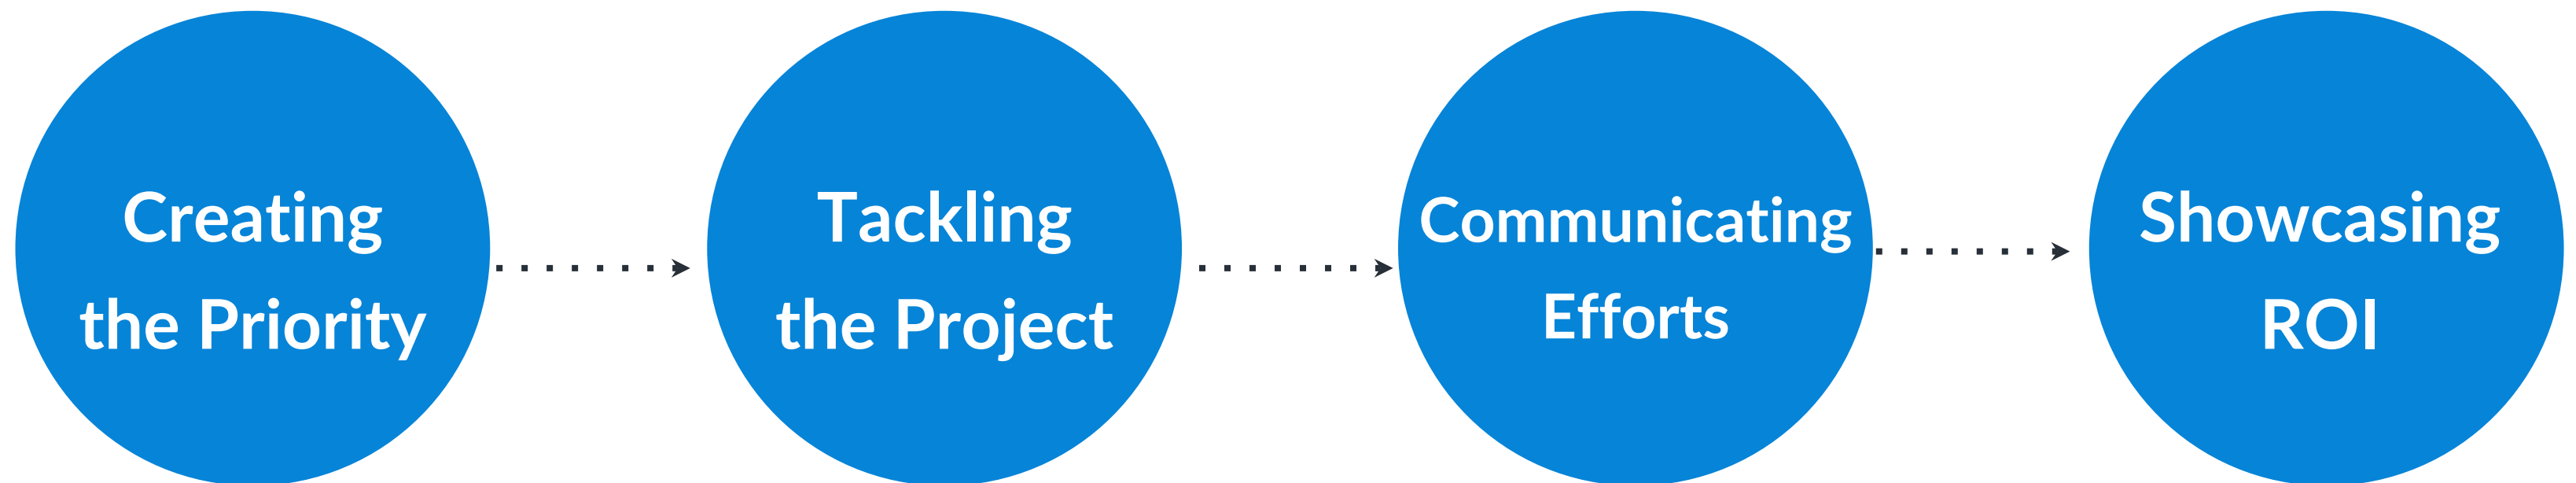

**Enhance  
Patient Care**

# Building a Culture of Safety and Support

*Highlighting the experience of*

## Key Questions:

- How do you create prioritization and urgency to invest in safety?
- What happens after safety becomes a priority?

# The Impact of Putting People First

## *How Patient Care Benefits from Enhancing Safety*

Research has found that unhealthy workplace conditions **deteriorate nurse mental health** and **compromise nurses' ability to deliver effective care** to patients and their families.

<sup>1</sup>

### Key Questions:

- Does your staff feel safe at work?
- Can the health care workforce afford NOT to invest in safety?
- How could the workforce and quality of care improve in your organization through enhanced safety measures?

**19% of Nurses who changed or left their roles cited safety as a factor. 37% said they consider leaving the profession<sup>2</sup> entirely.**

# A Focused Team is a Productive Team

98% of users say  
CrisisAlert helps  
them feel safer and  
more supported

- ✓ A safer workplace means happier, more engaged employees.
