

WHAT STRONG SYSTEMS MAKE POSSIBLE

aha.org/ValueOfSystems

INVESTING IN PEOPLE & COMMUNITIES

“We know we’ve improved access and quality in a sustainable way because we all grow together and that means more new jobs, strong economic growth and most importantly better care for patients.”

Bill Gassen | President & CEO, Sanford Health

MORE SERVICES WITHIN REACH

“It’s not about being big — it’s being able to provide services that cannot be done at a single location.”

Michael Ugwueke | President & CEO, Methodist Le Bonheur Healthcare

CONNECTING CARE

“A system brings together caregivers and services to help people get the care they need in a coordinated way.”

Rob Allen | President & CEO, Intermountain Health

KEEPING RURAL HEALTH CARE STRONG

“Collaboration is the fabric of rural healthcare. We have really strong critical access hospitals in our state and working together, we make sure local communities have access to the best care possible.”

Russ Gronewold | President & CEO, Bryan Health
